

QIAGEN Digital Insights presents

# QIAGEN IPA and QIAGEN OmicSoft User Group Meeting

Dates: Wednesday and Thursday, April 1 and 2, 2020  
(All times are shown in London GMT+1 time zone)

## Wednesday Agenda - QIAGEN OmicSoft

12:00 – 13:00 Core Capabilities training – QIAGEN OmicSoft features that drive value

13:00 – 14:00 **BenevolentAI: How artificial intelligence is disrupting drug discovery**

Povilas Norvaisas, Senior Bioinformatics Data Scientist, BenevolentAI

**Apis Assay: Mining databases for genomic signatures in diseases**

Agustin Guardiola, Computational Biologist, Apis Assay

14:00 – 14:30 Break and Q&A

14:30 – 15:00 **Healx: Title TBA**

Bugra Ozer, Bioinformatics Data Scientist, Healx

15:00 – 16:00 Advanced QIAGEN OmicSoft training and Q&A

16:00 – 16:30 **From data to biological insight using QIAGEN OmicSoft and QIAGEN IPA: Single-cell sequencing of normal human liver**

Jean-Noel Billaud, Ph.D., Senior Principal Scientist Bioinformatics, QIAGEN Digital Insights

16:30 – 17:00 **QIAGEN OmicSoft Roadmap**

Joseph Pearson, Ph.D., Global Product Manager, OmicSoft, QIAGEN Digital Insights

# QIAGEN IPA and QIAGEN OmicSoft User Group Meeting

Dates: Wednesday and Thursday, April 1 and 2, 2020  
(All times are shown in London GMT+1 time zone)

## Thursday Agenda - QIAGEN IPA

12:00 – 13:00 Core Capabilities training – QIAGEN IPA features that drive value

13:00 – 14:00 **Title TBA**

Gareth B. Kitchen, Ph.D., NIHR – Academic Clinical Lecturer, University of Manchester

**QIAGEN IPA Analysis Match – Context is key for advancing discovery**

Elodie Dubus, Ph.D., Field Application Specialist, QIAGEN Digital Insights

14:00 – 14:30 Break and Q&A

14:30 – 15:00 **De novo variants in exomes of congenital heart disease patients identify risk genes and pathways**

Cigdem Sevim Bayrak, Ph.D., Postdoc fellow, Icahn School of Medicine at Mount Sinai, New York

15:00 – 16:00 Advanced QIAGEN IPA training and Q&A

16:00 – 16:30 **From data to biological insight using QIAGEN OmicSoft and QIAGEN IPA: Single-cell sequencing of normal human liver**

Jean-Noel Billaud, Ph.D., Senior Principal Scientist Bioinformatics, QIAGEN Digital Insights

16:30 – 17:00 **QIAGEN IPA Roadmap**

Stuart Tugendreich, Ph.D., Global Product Manager, IPA, QIAGEN Digital Insights
