

Biomarker and Target Discovery with QIAGEN Digital Insights Solutions

Quickly find answers to your biological questions

Our powerful and high-quality tools are driven by

over
20 million
scientific findings

&

over
500,000
samples 

to save you

time

and

resources

while empowering your biomarker and target discovery projects to drive new discoveries.

Overview

Approaches and techniques

Identify/prioritize molecular candidates

RNA-seq

Gene expression

Interaction network analysis

Uncover potential mechanism of action

Explore molecules / pathways

Approaches and techniques to drive your biomarker and target discovery:

Identify and prioritize molecular candidates

RNA-seq

Gene expression

Interaction network analysis

Uncover potential mechanism of action

Explore molecules and pathways associated with disease

Contact information
